

## Design a Seed

- Seeds need to get away from their parent plants to give them space to grow.
- They can be dispersed in a number of ways:

- o By the wind

- o Getting trapped in animals' fur

- o Being eaten by animals

- o By the seed pod exploding

### Your task!

- Design a seed
- Think about how it will get away from its parent plant
- Draw a picture of your design
- Be prepared to tell the rest of your class about your design
