

# Who Wants to be a Millionaire-style quiz

Quiz for children who have had a workshop on  
the basics of composting & wormeries

On your table, you have 4 cards  
marked A, B, C, D.

A question will show on the  
board with 4 possible answers  
(A, B, C, D).

When your group thinks it knows the answer, hold up the letter card that matches the right answer.

We'll start off easy by choosing from two possible answers.

I: What makes composting happen?

A. Magic

B. Microscopic creatures

I: What makes composting happen?

A. Magic

B. Microscopic creatures

Now there are 4 possible  
answers.

Good luck!

2: Which of these creatures are  
NOT part of the composting  
process?

A. Worms

B. Flies

C. Millipedes

D. Dogs

2: Which of these creatures are  
NOT part of the composting  
process?

A. Worms

B. Flies

C. Millipedes

D. Dogs

### 3: Why should we compost?

A. Reduces our waste

B. Improves our soil

C. Free, organic compost!

D. All of these

### 3: Why should we compost?

A. Reduces our waste

B. Improves our soil

C. Free, organic compost!

D. All of these

4: Cutting a worm in half creates  
2 worms?

A. True

B. False

4: Cutting a worm in half creates  
2 worms?

A. True

B. False

5: A tiger worm is capable of processing its own body weight of organic matter in... ?

A. 1 hour

B. 1 day

C. 1 month

D. 1 year

5: A tiger worm is capable of processing its own body weight of organic matter in... ?

A. 1 hour

B. 1 day

C. 1 month

D. 1 year

6: The ideal temperature range for your wormery is... ?

A. -25 to -12 °C

B. -10 to 12 °C

C. 12-25 °C

D. 25 – 38 °C

6: The ideal temperature range for your wormery is... ?

A. -25 to -12 °C

B. -10 to 12 °C

C. 12-25 °C

D. 25 – 38 °C

7: Which of these do worms **not** like?

A. Light

B. Dark

C. Noise

D. Soil

7: Which of these do worms **not** like?

A. Light

B. Dark

C. Noise

D. Soil

8: Which of these creatures will you **not** find in your wormery?

A. Fruit fly

B. Centipede

C. Pseudoscorpion

D. Earthworms

8: Which of these creatures will you **not** find in your wormery?

A. Fruit fly

B. Centipede

C. Pseudoscorpion

D. Earthworms

Finally, can you remember the  
things we can and can't feed our  
worms?

Let's see...

## 9: Grass cuttings

A. YES

B. NO

## 9: Grass cuttings

A. YES

B. NO

Although grass is great in a normal compost bin, they can make a wormery get too hot.

10: Citrus peel

A. YES

B. NO

10: Citrus peel

A. YES

B. NO

Citrus peel (as well as onion skins and rhubarb leaves) should not be put in a wormery as they are too acidic for the worms.

11: Cooked vegetable leftovers

A. YES

B. NO

11: Cooked vegetable leftovers

A. YES

B. NO

12: Dog poo

A. YES

B. NO

12: Dog poo

A. YES

B. NO

# I 3: Fruit and veg peelings

A. YES

B. NO

# I 3: Fruit and veg peelings

A. YES

B. NO

14: Shredded paper

A. YES

B. NO

# I 4: Shredded paper

A. YES

B. NO

A bit of shredded paper is  
great to put in your  
wormery (or compost bin)  
as it is difficult to recycle.

Last question!

I 5: Tea leaves

A. YES

B. NO

I 5: Tea leaves

A. YES

B. NO

You can compost some tea  
bags too.

Many still contain plastic  
though.

Well done!
